** Admittance into these courses requires a 2.67 GPA.

¹This is the only part of the University Studies Requirements that transfers students with an associate degree need to complete.

²The economics major is a popular dual major for students, particularly in the College of Business. For example, finance majors also can earn a degree in economics by taking one or possibly two economics courses in addition to the courses required for the finance major.

³See the reverse side for a list of accepted electives.

⁴The prelaw emphasis is popular as a dual major for students in political science or other programs outside of the College of Business.

⁵The regular calculus series (Math 1210 and 1220) is recommended for economics majors contemplating graduate studies in economics.
